WIG MANUFACTORY,

No. 85 Fourth Street, bet. Main and Market,
(THE OLDEST STAND IN LOUISVILLE.)
MRS. G. NICHOLAS invites the attention of her customers and others to her newly-invented Vascillating Human Wigs. These Wigs were invented by Richard Beck, of London, and made by one of the gentlemen in my establishment, who took the highest premium for the best Wigs on exhibition at the Industrial Exhibition, London, in 1851. They are warranted not to shrink; (those who have worn Wigs know the the greatest comfort in a Wig is in one that will not shrink.) They are made to combine a resemblance to nature as to defy detection—and to excite sentiment to see the effect, a large assortment is kept on hand for inspection, any of which, if approved of, saves the purchaser both time and trouble, as several elegant specimens of Wigs cannot be found elsewhere. Also, a splendid assortment of Ladies' Wigs and Half Wigs, Braids and Curls, always on hand and made to order at the shortest notice. Brushes, Perfumery, Gloves, and a general assortment of Fancy Goods, of the very latest importations.
P. S. Ladies will please remember that they can have their hair dressed at the same place.

Oblique Gold Pens.—The excellence of a well-made quill pen is acknowledged by all, but few are aware that the secret is that it bends laterally at the point in making strong shades, and becomes an oblique pen.

Report of the Judges of the Franklin Institute Exhibition, 1850 and 1852. (In 1850, the responding well of other pens.)
GOLD PENS by W. FITE.—These pens, for strength, smoothness, and delicacy of feel, appear to come nearly to the quill pen, and are the best in the exhibition.
And in 1852 the Institute awarded the first premium, a silver medal, to these pens.
Testimonials to their excellence have been received from various editors and others in different parts of the United States, which we respectfully invite the public to call and try for themselves. They are warranted, for material, finish, and durability, at least equal to those of the best makers.

WEDNESDAY, MARCH 21, 1855.

Know Nothingism opposed to the Constitution of the United States.

The know nothings wish to change the naturalization laws, and to exclude all Catholic from office, the latter object they propose to accomplish, not by changing the Constitution, but by pledging themselves to vote for none of that religious sect for any office. This is only exercising the right of suffrage as they please, and therefore they do not violate the Constitution, which cannot require them to cast their votes otherwise than according to their own discretion.

The Constitution, however, provides that Congress shall establish a uniform rule of naturalization. Its authors evidently contemplated that foreigners should be naturalized although the term of residence previous to naturalization is not prescribed; that is left to the discretion of Congress. If that body should require a longer period than the usual life of man, it would be a clear evasion of the provision of the Constitution. Twenty-one years of residence would exclude a large portion of our foreign immigration entirely from the right of suffrage; still, a requisition of that length of time would not probably be decided unconstitutional by our judicial tribunals. But it is a longer period than was contemplated by the framers of our Constitution. The action of Congress in the earlier days of the Republic show how the Constitution was understood by our revolutionary fathers, who achieved our independence. They first fixed a period of two years residence previous to naturalization. A few years afterward they extended the time to five years. In 1798, in the days of the alien and sedition laws, the time was extended to *fourteen years*. The republicans of that day condemned this act as illiberal and a virtual evasion of the Constitution. THOMAS JEFFERSON, whose authority is invoked by the know nothings, with the assurance of Satan himself, brought the subject before Congress, immediately upon his election to the Presidency. Here is his own language:

From Jefferson's Message, Dec. 8th, 1801.

I cannot omit recommending a revisal of the laws on the subject of naturalization. Considering the ordinary chances of human life, a denial of citizenship under a residence of fourteen years is a denial to a great proportion of those who ask it, and controls a policy pursued from the first settlement of many of the States, and still believed of consequence to their prosperity.—And shall we refuse the unhappy fugitives from distress that hospitality which the savages of the wilderness extended to our fathers arriving in this land? Shall oppressed humanity find no asylum on this globe?

JEFFERSON was opposed to foreign influence—but influence that is properly called foreign—but here is his opinion on the specific point at issue. Two years had been tried, which shows that the early fathers of the Republic intended the naturalisation of foreigners at the earliest period: they extended it to five years; then an adverse influence extended the period to fourteen; after a trial, the period of five years was restored, at the earnest recommendation of JEFFERSON himself.

Although the Constitution does not fix the time, there are some of its provisions inconsistent with the requisition of a long period for citizenship.

The Constitution provides that a man may be a Representative in Congress who has been a citizen of the U. S. seven years; and a man may be a Senator who has been nine years a citizen. Of course the framers of the Constitution allowed foreigners to hold office; they provided for it; but a long period of residence before naturalisation, such as is proposed, would make this provision of the Constitution a nullity. Hence, although Congress may extend the time of residence before naturalisation to perhaps twenty-one years, without a direct violation of the Constitution, the policy would be contrary to the earliest legislation of the country, and at accord with the spirit of the Constitution itself. Besides, the present crusade against foreigners is antagonistic to all former policy of the country. The exclusion of all foreigners from office was not contemplated by the framers of the Constitution. They expected and provided otherwise. The Constitution provides that a foreigner may hold office; a party determines they shall not.—The Constitution is if would have been efficient if this new party had made it.

The Constitution provides against any religious test expressly; but a new party determine to make one by their votes. They propose, in another way, to make a test, when the Constitution denies the power of Congress to make it. We may add that every State Constitution in the Union, save one or two, provides against a religious test in the strongest and most emphatic terms. The new party is against every one of them, and virtually makes a test that every Constitution repudiates and condemns. They are inculcating just the opposite of all our principles heretofore. Our organic laws should express the sentiment of our people, but this new party undermines the provisions of our Constitutions, and nullifies their principles.

They can vote as they please, but in voting for the reasons they give they ought to see that they are repudiating the former political faith of the country, and introducing an illiberal and intolerant feature into our institutions, one entirely subversive of important provisions. The creed of the new party is in this sense unconstitutional. It is distinctly and emphatically opposed to all distinguishing feature both of our National and State Constitutions.

☞ Pantological System; by F. W. Hunt.—This is a statistical work, containing a vast amount of historical information in a small compass. An agent will canvass the city, and the reader can judge of the work. It is cheap for the amount of information it contains.

☞ The St. John Courier says that the Legislatures both of Nova Scotia and the State of Maine, have refused a charter to the Newfoundland Telegraph Company. This Company has obtained a monopoly of Newfoundland for fifty years, and it is said that it is chiefly on that ground that the charter has not been granted.

OFFICIAL.

BOARD OF COMMON COUNCILMEN.

MONDAY, March 19th—7, P. M.

PRESENT—President Ridley, Messrs. Gilligan, Dunlap, Davies, Taylor, Shepard, Shanks, Richardson, Garvin, Kaye, Pennebaker, Johnstone, Pope, Atkinson, Pollard, and Gault.

Summers, collector of railroad taxes, eastern district, be approved, and agreed on the records of the Council, and the auditor shall give the proper credits for the various items to the account of said collectors, was adopted.

The Council then adjourned to meet again on Friday, March 23rd, at 7½ o'clock, P. M.

JOHN V. VARNUM, Clerk.

SUPPOSED MURDER. — Suspicion having been aroused in consequence of the sudden demise and burial of Mr. SAMUEL STILL, his body was disinterred by the proper officers, and a coroner's jury summoned to inquire into the facts. A post mortem examination satisfied the physicians in attendance that said STILL had come to his death by strangulation, caused by violence used upon the throat. This fact being ascertained, the jury were next led to inquire who had done such violence, and after listening to the testimony caused a warrant to be issued for JOHN ROHER, who was arrested by officers BERKHART, JOHNSON and DARINGER, on Saturday, and taken before Esq. FISHER. ROHER wanting time to collect testimony, the examination of the case was deferred until Thursday next.—*Ind. Journal.*

SPECIAL NOTICES.

☞ HOLLOWAY'S Pills are the best medicine now on sale in the United States. The ingredients of which they are composed are so unimjurious that they cannot harm the most delicate constitutions. To valetudinarians they cannot fail to be of the utmost service, being composed entirely of medical herbs, the production of the proprietor, who has made it his study to alleviate the ills to which the human family are subject. They must, therefore, be hailed with delight, as supplying a want long felt in this country and therefore may be relied on in all cases of disorder of the liver or stomach.

Sale of Dr. M'Lane's Vermifuge.

☞ Among the hundreds of letters, certificates and orders received by the proprietors of this medicine the following are selected to show its characters, and the effect of its use in a distant part of the west:

KOYALTON, Boone county, Ia., May 10, 1850.

Messrs. J. Kidd & Co.—Gentlemen: I write to you to solicit an agency for the invaluable Vermifuge you prepare. Some time since, I purchased one dozen vials of Mr. C. Rdy, and practised it in my practice; and it proved so effectual in the expulsion of worms, that no other preparation will satisfy the citizens of this village and vicinity! Please send me one gross of the Vermifuge immediately.

Yours, &c., SAMUEL ROSS.

NEW PROVIDENCE, Penn., July 1, 1851.

Messrs. J. Kidd & Co: Please send the Vermifuge forthwith as soon as possible, as we are nearly out, and the demand for it is very great. We believe it to be the best Vermifuge ever invented.

PORTER & DYCUS.

☞ Purchasers will please be careful to ask for Dr. M'Lane's celebrated Vermifuge, and take none else. All other Vermifuges, in comparison, are worthless.

☞ Dr. M'Lane's genuine Vermifuge, also his celebrated Liver Pills, can now be had at all respectable drug stores in the United States and Canada. mr19 d6w

TO THE PUBLIC.

LOUISVILLE, Ky., Feb. 8th, 1855.

MR. SOLOMONS—Dear Sir: I called upon you at your office, on Fourth street, in December last, and told you that I had purchased several pair of Spectacles at different stores, but had never obtained any that did not cause pain at pain and fatigue to the eyes, but am happy to state that the pair I purchased of you suit beyond my expectations, by day and candle light. I have found my sight improved so much since I purchased them, that I can now sit down and read fine print without them. Wishing you every success in your profession, I remain,

Yours truly, S. HILLMAN.

LOUISVILLE, Ky., Feb 24, 1854.

MR G. SOLOMONS—Dear Sir: Having satisfactorily tried a pair of Spectacles purchased of you, and finding them far superior to any I have ever used, in that they rest and strengthen the eye, whilst all others have pained, wearied, and weakened my sight, I cordially recommend them to the use of all who stand in need of them.

Respectfully yours, S. J. EVANS, Od Broadway.

JEFFERSON Co., Dec. 3, 1854.

I have used Mr. SOLOMONS' Eye Glass for a very brief period, with decided advantage, and have no hesitation in stating that a defective vision of long standing has been relieved, and the organs seem to be acquiring vigor and tone. I therefore cheerfully bear testimony to their excellency and accuracy, as also to Mr. Solomons' skill as a practical Optician, and the wonderful facility with which he adapts his Glasses to the various peculiarities of vision.

Yours truly, SAMUEL B. SMITH.

Professor McClintock's Pectoral Syrup AND GREAT AMERICAN REMEDY

For Consumption, Bronchitis Severe Coughs, Hoarseness, Spitting of Blood, Pain in the Chest, Tightness of Breathing, Night Sweats, and all Pulmonary diseases. Prepared and used in his large private practice for more than twenty years past, with unparalleled success, by the justly celebrated Professor James McClintock, M. D., late professor of Anatomy and Surgery in the Philadelphia College of Medicine, formerly Professor of Anatomy and Surgery in Castleton Medical College, Vermont; late Professor of Anatomy and Physiology in Berkshire Medical Institution Pittsfield, Mass., &c., &c., &c.

Professor McClintock's Pectoral Syrup is put up in pint bottles, and sells at $1 a bottle.

ALSO

PROFESSOR McCLINTOCK'S COLD AND COUGH MIXTURE,

For the relief of recent Coughs, Colds, and Inflamation of the Throat, or Lungs. The rapid effect of this mixture is most surprising. It is highly important in this changeable climate that every family, especially where there are children, should be provided with a medicine that will act promptly and give quick relief in Hoarseness, Sore Throat, and Croup. Those to, who are predisposed to Pulmonary Diseases, cannot be too careful to check the first symptoms that appear, as a few days may change a common Cold into a settled Consumption or Bronchitis. It is pleasant to the taste, and is put up in a convenient shape and size, at the low price of 25 cents per bottle.

☞ WHEN wealth is at the door, the remedy which would have saved life, if administered in time, comes too late. Do not trifle with diseases. Rely upon it, that when the stomach will not digest food—when faintness and lassitude pervade the system—when the sleep is disturbed, the appetite feeble, the mind lethargic, the nerves unnaturally sensitive, and the blood contused—rely upon it, that when these symptoms occur, the powers of vitality are failing, and that, unless the mischief is promptly checked, life will be shortened, as well as rendered miserable. Now we know from a mass of testimony greater than was ever before accumulated in favor of one remedy, that Hoofland's German Bitters, prepared by Dr. C. M. Jackson, Philadelphia, will immediately abate, and, in the end, entirely remove all of these disorders resolve as a mathematical process will solve a problem. Who, then, will endure the agony and the risk of life with health and safety within reach?

☞ PLAGUE and Fever of three years Standing Cured.—John Longden, now living at Beaver Dam, Hanover county, near Richmond, had ague and fever for three years—most of the time had chills twice a day, and rarely less than once. He was parched with fevers as soon as the chill left him; and after trying physicians, quinine, most of the tonics advertised, and everything recommended to him, was about to give up in despair, when Carter's Spanish Mixture was spoken of. He got two bottles, but before one had used more than a single one, he was perfectly cured, and has not had a chill or fever since.

Mr. Longden is only one out of thousands who have been benefitted by this great tonic, alterative, and blood purifier.

WEDNESDAY, MARCH 21, 1855.

☞ For announcements, Auction Sales, &c., see appropriate heads.

NOT A CANDIDATE.—Dr. J. C. Mercelle is not a candidate for Alderman in the Second Ward.—He is not old enough, and therefore ineligible.

☞ Drift wood in large quantities have been taken out of the river. It is a god send to poor people these times.

☞ The Secretary of the Navy has purchased at $50,000 the steam propeller City of Boston, to send in search of Kane.

☞ Prof. C. W. Wright delivered an interesting lecture, at the hall of the Kentucky School of Medicine, last night. It was favorably received.

THE WEATHER.—Yesterday was as cold as we generally see it at this season of the year. It was freezing all day, and the thermometer 5 degrees below freezing point.

KATE FOGAN.—Nine large stone keys were found on Fifth street, between Market and Jefferson, last night, and left at the Democrat office. Owner can obtain the same by calling.

☞ The Washington Star says, that not the slightest doubt of the correctness of the report of the Clarke death is entertained by the President, Cabinet, or Foreign Ministers.

☞ James D. Taylor, Esq., editor of the Cincinnati Times, is said to be the know nothing candidate for mayor in that city at the ensuing election.

GUILTY.—Wm. Kissane, notorious in name, and perhaps worse in reality, has been found guilty of forgery at New York. The sentence is not yet known.

AUCTION.—C. C. Green & Son sell a desirable lot of furniture, stoves, show cases, Chinaware, &c., this morning, at 10 o'clock, at their auction rooms, No. 80 Third street. See advertisement.

☞ Wells, Fargo & Co., of New York, telegraphed to their agent, Frank Tryon, of this city, that they have made no failure. All drafts will be met promptly there, and at all other branches of their house.

SCOUNDRELS.—Samuel Johnston and John Goffney, charged with committing a rape on the person of Mary Binkon, were committed in Cincinnati, to answer in default of $1,000 bail. The woman is said to be of evil fame, but the crime is none the less atrocious.

☞ A writer in the Christian Examiner describes Barnum's Jenkins as a "vulgar copy of the most vulgar palace of the most vulgar prince who ever sat up in the English throne: a mountebank bumbug in wood and stone, bristling at the outside with pretense, and within, as splendid as a steamboat!"

☞ There are hundreds of our fellow creatures to whom fresh air and the light of the sun are scarcely known. According to a number of Chamber's Edinburgh Journal, nine in a quarter of a million of people are this day working under ground in the mines of England. Of these, 20,000 are doomed to an untimely death. This is not a mere conjecture, it is an average of the casualties of past years.

☞ New York City contains an army of drunkards! The Warden of the City Prisons reports that there were committed in 1854 for intemperance 25,371 persons. Many were committed more than once. The total of different intemperate persons committed was 9,350; being 1 44 100 per cent. of the population of New York.

☞ It is estimated by competent persons that the property in Cincinnati known as "Cassily's Row" has decreased in value one-third since the enforcement of the State Liquor law. The lower part of the row was occupied mostly by coffee houses, many of which have been and are now closed.

☞ An entire stock of wines, liquors, segars, Virginia tobacco, and store fixtures, will be sold this morning, (Wednesday,) at 10 o'clock, by Messrs. S. G. Henry & Co., by order of the assignee of Mr F. Redman, at his store room on Market street, near Second, north side. The whole stock will be sold without reserve, on four months' credit, for sums of $50.

☞ Remember—this is the day—that sale of elegant furniture, etc., takes place at the residence of Sam. Hyman, corner of Sixth and Chestnut streets. Our friend, Charley Spencer, assures us that this will be "the sale of the season," and that he will see to accommodate purchasers with anything and everything, from a needle to an anchor. Sale begins at half past nine o'clock.

☞ Those in want of a comfortable dwelling house and lot, will see by the advertisement of Messrs S. G Henry & Co., that they sell this afternoon, at 3 o'clock, on the premises, a desirable frame house and lot on Market street, between Ninth and Tenth streets, now occupied by Mr. D. Lane. Terms very liberal, and at 4 o'clock, they sell for cash, a snug two story house and lot, on Eleventh street, near Main, now occupied by Mr. Kennedy. Sale positive, on account of departure of owners.

DESTRUCTIVE STORM.—Danville, Ky., was visited by a most destructive tornado, on the afternoon of the 16 h, which resulted in the destruction of about fifteen houses, besides doing much damage to churches and other buildings, demolishing windows, throwing down chimneys, &c. Loss $15,000. A Mr. Collins had the entire roof of his house carried a distance of fifty yards. The storm was followed by an immense fall of rain, which contributed greatly to the loss of property.

☞ Died, on the 8th inst., in Poundridge, Westchester County, N. Y., Mr Samuel Dan, at the great age of 101 years, 8 months and 18 days. Mr. Dan was currently engaged in the war of the Revolution, and personally assisted in the building of Fort Washington, on the Hudson; was forty seven years contemporary with Washington, and 65 years a member of the Methodist Episcopal Church. He was born years before the old French War, and recently told his friends that he distinctly recollected the principal events of that contest, the crowning blow of which was Wolfe's victory over Montcalm.

SPIRITUAL.—A San Francisco editor, F. C Ewer, recently prepared a fictitious sketch, describing the sensations of a dying man. He, as the best mode of overcoming all difficulties involved in such relations, made his hero describe his death from the spiritual world. The author was recently surprised to find that Judge Edmonds had used his fictitious narrative as the production of a veritable spirit, and the Judge wrote to the author to acquaint him with the fact that he had had several spiritual interviews with this defunct "hero," who never had any existence except in Mr. Ewer's brain. Mr. Ewer's letter is rather an amusing proof of the credulity of the Judge, and the indicrous absurdities in which the professed spiritualists involve themselves, by taking leave of common sense, and ignoring the well established moral and physical laws of the universe.

NEW TERM.—The Detroit *Enquirer* notices that the Great Western agents have introduced a new term into commerce. It has been on the receipts for flour, to which were attached the following inscription: "Not answerable for weights or oscillation." The meaning of this new term was not thoroughly understood, until a well known flour dealer came up from Buffalo, and defined it as having reference to the loss occasioned by the vibration of the cars in passing over the road, which shakes and loosens the barrels to such degree as to cause a loss of weight in each barrel of flour, more or less, according to whether the barrel is well manufactured or not. For this loss of weight in each barrel of flour, which is caused by "oscillation," the Rail road agents declare on their receipts the road will not be held liable.

WEATHER AND RIVER.

WEATHER AND RIVER.—The cold weather checked the rise in the river, and it is at a stand. Yesterday was cold, freezing, and windy.

PITTSBURG, March 20, P. M.

There are eleven feet water in the channel and falling. The weather is cold and clear.

CINCINNATI, March 20—P. M.

The river has risen one foot since yesterday.—The weather is very cold—thermometer now 20 degrees above zero.

NEW ORLEANS, March 15.

Arrived—Rainbow, Glendale, and Glendy Burke. Departed—Belle Sacridan.

NEW ORLEANS, March 15.

Departed—Glendy Burke and Rainbow.

NEW ORLEANS, March 19.

Arrived—Fanny Bullitt, Eclipse, Lexington, and Landis.

PITTSBURG, March 19, M.

The river is falling with 11 feet 10 inches water in the channel. The weather is cold and windy.

CINCINNATI, March 19, M.

The river has risen 6 inches. The weather is cool and clear.

FOR CINCINNATI.—The Telegraph, Capt. Pat. Rodgers, anti know nothing, we hope, and a clever fellow, leaves for Cincinnati at 11 o'clock to day.

At Pittsburg, last week, the steamer Thomas Shriver, was sold, at assignee's sale, for $5,500; one-third cash, the balance in four and six months. J. K. Morgan, Esq., was the purchaser.

IMPORTANT STEAMBOAT CASE.—An interesting decision was rendered by Judge Gholson on Monday, at Cairo, in a case in which a contest had existed between attaching creditors, and creditors seizing under the steamboat law. It appeared Martin Anshuiz & Co. had a claim against the steamboat Flag, under the steamboat law, and had seized her; but the attaching creditors were before them, and had claims sufficient to swallow up the whole proceeds of the sale; and the question in the case was, who should be preferred. The Court held, that as the parties should come in according to the order of time in which they levied on the boat; that an attachment should be regarded equally with a seizure under the steamboat law, and if first levied should be first paid.

STEAMBOAT ACCIDENT.—The steamer Advance, from Cincinnati for Marietta, with a cargo consisting principally of groceries, while landing at Hackettsville, Ohio, eight miles above Guyandotte, about 12 o'clock on last Saturday night, struck a snag or rock a little aft of midship, on the larboard side, six inches above the knuckle, knocking a hole in the hull. She landed and discharged a small lot of freight, and had backed out, when the engineer discovered she was making a trunk, and dispatched a deckhand to the hold, who found that she was leaking and had shipped from 18 to 20 inches water, and was sinking fast.

Captain D. Smith immediately had her run ashore when she was sinking rapidly, and ordered considerable freight to be thrown overboard to save the boat. At this time the Kanawha packet Salem, Captain Farley, hove in sight, when Captain Smith hailed her, the Salem rounding to and coming to her rescue. She came alongside, lightened off the Advance, and kept her above water until the task was stopped by stuffing blankets, mattresses, &c., into the hole. Being unsafe to complete her voyage, the Advance was abandoned to the Salem and crew, the latter boat towing her here safely, claiming salvage. The cargo was principally for Marietta and Parkersburg, with light loss for intermediate ports. The Advance was worth over $13,000, and insured in Pittsburg for $10,000. She can be easily repaired.

THE MISSISSIPPI.—The St. Louis Intelligencer, of the 17th, says:

At this point the river had risen in the 24 hours ending at dark last evening, about six inches, which is quite a falling off in the rate of the increase. The last arrivals from Keokuk report the water on a stand, with about four and a half feet on the rapids. The Missouri is not rising. No news from the Illinois. Mark Twain to Cairo.

THE RIVER ABOVE.—The Cincinnati Commercial, of yesterday, says:

Last evening at dusk the water was up to the pavements at the foot of Broadway and Main streets, and rising at the rate of half an inch per hour. The last boats down report the river rising slowly above, so that from present indications the rise here will not make over four feet more water. The Salem reports Kanawa river falling from Charleston to the mouth, on Saturday, with twelve feet in the channel. Yesterday was a dusty, windy, chilly, disagreeable day—the wind blowing a perfect hurricane from the West, causing the "white caps" to roll free, and rendering navigation everything but agreeable. The wharf was thronged with freight and passengers, principally for the West. The Duke and Monorch left for St. Louis, crowded with passengers. A company of seventy Germans, from this city, started for Kansas on the Duke. They marched on board in procession, with a brass band on their right.

The shippers by the Advance met at Paul & Murdock's yesterday, and agreed with Capt. in Farley, of the Salem, and others claiming salvage, to sign an average bond, and submit the matter to the Chamber of Commerce for arbitration.

She then communicated the whole circumstance to her good friends and protectors, who immediately applied to the proper authorities for the arrest of Mr. —— on a charge of seduction under the promise of marriage, and luveling young girls into houses of ill fame. The whole matter will shortly undergo a strict investigation by the authorities, when the public may expect to see some interesting developments in relation to this modern Lothario.

We suppress the names of the parties out of respect for their friends and relations.—[N. Y. Express.

Democratic Meeting in the First Ward.

At a meeting of the democrats of the First Ward, held on Monday evening last, in Hall's Hall, on Jefferson, between Hancock and Clay streets, John B. Emig was elected Chairman, and Charles Resch, Secretary.

The following preamble and resolutions were adopted:

WHEREAS, the only object of this meeting was to give the German citizens of the First Ward an opportunity to consult what steps are to be taken in regard to the license question, to be decided at the next April election. Therefore—

Resolved, That another meeting of the democrats of the First Ward be held in the same hall, on Wednesday evening, the 21st of April, to nominate candidates for the several Ward officers, to which all true democrats are invited to attend.

Resolved, That these proceedings shall be published in the Times, Democrat, and the Anzeiger. JOHN EMIG, President.

CHAS. RESCH, Secretary.

Police Court.

TUESDAY, MARCH 20.

Joseph Root, drunkenness. Let off on promise.

James Shannon and John Arnold, fighting in the street. Arnold let off and Shannon held to bail in $100 to answer a charge of assault.

David Yarborough was arrested for having in his possession $41 in counterfeit and worthless money, with the intention of passing it. It consisted of three $10 counterfeits—two of the Farmers' Bank of Kentucky and one on the State Bank of Indiana, and $21 in Newport Safety Fund and Massillon. He offered Mr Mellus, at the theater, the three counterfeit notes. Bail in $4,000 to appear. Committed.

Commonwealth by Margaret McGarroll vs. James McGarroll, p w. Mrs. McGarroll was evidently tired of her husband. He said there was a difference of religion existing between them. Own recognizance in $200 for three months.

John Martin, alias Jarvis, and Albert Harrison, alias Jarvis, two boys, were charged with attempting to pass counterfeit money, at the theater. They first offered a $10 counterfeit bill on the Planters' Bank of Tennessee, and then a $20 bill on a Virginia bank, which Mr. Mellus thought was spurious, but it turned out to be a good bill; next they offered some Newport Safety Fund, and lastly a $5 dollar gold piece, but Mr. Mellus refused to permit them to go in. The smallest boy, who is about 13, took to his heels. The largest, Martin, about 16 or 19 years old, was arrested, and the young one was caught subsequently at the Galt House. They represented themselves as from Pittsburg. Marshal Kidd and officer Kirkpatrick noticed them yesterday at the wharf. They followed them to the Galt House, where they had put up. Each of them had about $50 in gold, but the $10 note of the Planters Bank was missing. A third young man was in the room with the little one at the Galt House, and he was also arrested, but nothing was found on him. There being no charge against the latter, he was sworn as a witness, and stated that the boys were from Pittsburg. Bail of the large boy in $300, and the small boy in $200, for three months.

Several ordinance warrants, principally for driving faster than a walk, were disposed of.

Harriet Ann O'Donnell and Mary Ellen Tate, disorderly conduct. Discharged.

BY TELEGRAPH.

HARRISBURG, March 20.

The House to-day passed bills incorporating eleven new banks, four of which had already passed the Senate.

CINCINNATI, March 20.

The two negroes who were arrested on last Saturday, on a writ of habeas corpus, were brought into court to-day, when Judge Stone informed them they were at liberty to go free, but they preferred to return with their masters, and were at once conveyed across the river without excitement.

RICHMOND, March 20.

There was a terrific explosion at Middlethean coal pitts, Chesterfield, last evening. Sixteen were taken out living and eight dead, probably all will die. It is supposed most of them will doubtless die by the cause of the blast.

NORFOLK, March 20.

The frigate Columbia, flag ship of the home squadron, arrived Sunday. There was 50 cases of yellow fever on board.

FREDRICKSBURG, March 20.

Charter election, yesterday the know nothings elected the mayor, and the whole ticket of officers.

CINCINNATI, March 20.

The probate court issued an attachment for captain of the Falls City, who had nineteen slaves on board the boat on Sunday evening at the wharf, and prevented the Sheriff from examining the boat, until the slaves were conveyed in a yawl to the Kentucky shore.

The weather is very cold. The thermometer was 20 degrees above zero.

BUFFALO, March 19.

It is supposed that Baker passed through here on his way to Canada on Saturday. Rice, the negro comedian, recognised him in a hotel at Lewistown, waiting for the Toronto boat. Rice took a gentleman aside to inform him of his suspicions, when Baker became alarmed and went out and crossed the bridge into Canada. Rice knowing him well, asserts that he was dressed in a heavy drab overcoat, cap drawn over his eye, left arm crossed on his chest, and sustained by his right arm. An officer has been sent from this city to Toronto to take Rice's deposition so as to identify and obtain further information. Rice denied any possibility of mistake.

NEW YORK, March 20.

The California bankers' failures produced no effect here. Stocks generally advanced 1 and 2 per cent. Private advices lead to the belief that all the houses will resume payment in a few weeks.

The steamer communicated with the shore at 12 o'clock last night, and a few speculators got hold of the news and operated in stocks extensively, calculating upon a large decline, but when the board met all the stocks advanced. The speculators who operated for the decline lost $30,000.

The news did not generally transpire until 11 in the forenoon.

CLEVELAND, March 19.

The motion for a new trial in the case of Parks was overruled, and he was sentenced to be hung on the first Friday in June.

WASHINGTON, March 19.

McGraw, the contractor for carrying the mails from Independence to Santa Fe, was sentenced to pay a fine of $500 for an assault on Mr. Pope, editor of the Star. The counsel withdrew Mc Graw's application for a new trial in consequence of the urgency of his presence at Independence.

ROCHESTER, March 19.

The body of Emma Moore, whose mysterious disappearance a few months since caused much excitement, was found in a mill race by a boy who was drawing water. The bonnet and car jewels were identified.

One hundred and fifty guns were fired by the citizens in honor of the reciprocity proclamation.

NEW YORK, March 20.

It is understood that the Governor will send his message to the Legislature to-day, recommending the imposition of tolls upon railroad freight for the benefit of the canal.

CELEBRATED

German Bitters,

PREPARED BY

DR. C. M. JACKSON, Philada., Pa.,

WILL EFFECTUALLY CURE

LIVER COMPLAINT, DYSPEPSIA, JAUNDICE,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from disorders of the Liver or Stomach.

Such as

Consumption,
Inward Piles, Fulness, or Blood to the Head,
Acidity of the Stomach, Nausea,
Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations,
Sinking or Fluttering at the Pit of the Stomach,
Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying Posture, Dimness of Vision, Dots or Webs before the Sight,

Sudden Flushes of Heat,
Burning in the Flesh, Constant Imaginations of Evil, and
Great Depression of Spirits.

The proprietor would call the attention of the public to the fact that the above complaints, if allowed to progress, will undermine the constitution, and destroy with a feeling of the most confirmed hypochondriac, rendering the sufferer unfit for the discharge of the duties of life. Of the many thousands who are daily using the German Bitters, there is not one but will recommend them to their friends and acquaintances as the best remedy they ever used.

It is now a well ascertained fact that the German Bitters have stood the test of ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and Individuals, in all parts of the country, is immense.

The following, from your own State is respectfully submitted, suffering any who may still doubt, to refer to Memorabilia, or Practical Receipt Book for Farmers and Families, to be had gratis, of all the Agents for the German Bitters.

New Discovery for the Eyes

SPECTACLES, &c., ground on the exact principle discovered by G. SOLOMONS, the celebrated Oculist and Optician, from the improved Spectacle Manufactory and London Optical Establishment, No. 105, Old Bond street, London, established more than a century since.

G. SOLOMONS, the sole inventor of the improved Spectacles, and various improved Glasses, is now on a professional visit to this place, and may be consulted at his house, No. 74 Fourth street, between Main and Market.

He has had the honor of attending the principal towns of the United Kingdom, where he has experienced the most flattering encouragement; and having been repeatedly solicited to make a visit for a short time to the honor of announcing his arrival from London with a most splendid assortment of his newly invented spectacles, which he can adapt to the sperfection of vision glasses, that persons having laboured or weak eyes may instantly be relieved by using them; and may possess the property of preserving the sight to the most advanced period of life, when they enable both the old and the young to peruse the most minute characters in any length of time without the least fatigue or inconvenience. Those of Short Sight are proved their efficacy, he most confidently solicits the further favors of the public, which he will ever be proud to acknowledge, assuring those who may favor him with their commands, that no attention shall be wanted on his part to merit their approbation. Added to the advantages possessed by this eminent practice of the Eye Infirmaries, and by long study, he respectfully solicits Occulists, by which he has obtained a thorough knowledge of the diseases of vision, as he is in the possession documents from the most eminent, and the most distinguished faculty, certificates, conveying the highest testimonial and approbation.

He will give references to persons in the United States, who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The Tympanic Concave-ator is an extraordinary, powerful, but invisible small instrument, entirely different in make from all others, and superseding everything that has been proposed to the world as the only means of restoring hearing, and being of the same colour as the flesh. It is not perceptible. The powers of this wonderful invention are so great as to restore deafness in a very few days, and being so perfect and natural in every respect that no person can detect that you are using it. Hundreds of persons to join in general conversation, to hear most distinctly at a place of worship, lecture, or any public assembly; the most pleasing sensation of ringing of the bells in the ear is entirely removed, and the consequent comfort affords to individuals acquainted with this dreadful malady all the assistance that can possibly be desired.

St. Louis, Nov. 14th, 1853.

It gives me pleasure to bear testimony to the value of Mr. Solomons' Glasses. I have been under the necessity of using glasses in reading, especially at night, and I found it very difficult to get adapted to my difficulty, as any I have tried.

CHAS. W. STEVENS, M. D.,
Professor of Anatomy in the St. Louis University.

PITTSBURG, June 8th, 1853.

I am using a pair of Mr. Solomons' Glasses, and find them very convenient. I cheerfully add my name to the number of those who recommend them.

JOS. P. GAZZAM, M. D.

NEW YORK, June 4th, 1850.

Having made a trial of Mr. Solomons' spectacles and examined the principle on which they are constructed, I have no hesitation in pronouncing them perfect in every which I have examined, and can confidently and most cheerfully recommend them to all who need artificial aid to improve their sight.

CHAS. A. LEE, M. D.,
Professor of Pathology and Materia Medica, Geneva College and Fowdoin College.

LOUISVILLE, Dec. 23rd, 1854

Mr. Solomons has furnished me with my first pair of glasses. They appear to answer the purpose very well, and I occasion no uneasiness to the eyes when used. The testimony of other medical gentlemen of experience in the matter, is very conclusive and flattering to myself.

JOSH. R. PAINE,
Professor of Glasses, Ky. School of Medicine.

I have made trial, for a short time, of Mr. Solomons' Glasses, and I am much pleased with them; they render vision very distinct, and appear to fatigue the eyes less than the glasses I have before used. Those in need of artificial aid in this respect, will do well to call on him.

H. MILLER,
Prof. Obstetrics, University of Louisville.

I have this morning examined Mr. Solomons' Glasses and having, for the last two years, made diseases of the eyes my study, I have no hesitancy in saying to those who need glasses, that they will find them a superior article, well adapted to all cases.

L. YATES, M. D.,
Oculist, Louisville, Ky.

LOUISVILLE, Oct. 2nd, 1854.

I have examined Mr. Solomons' Glasses, and as though I have those now using (these for the last few years), I find them superior to any I have used so far. Given under my hand this 23d day of Oct., 1854.

THE AMERICAN'S FRIEND
HOLLOWAY'S PILLS.

To the Citizens of the United States:—

I most humbly and sincerely thank you for the immense patronage which you have bestowed upon my Pills. I take this opportunity of stating that my ancestors were all American citizens, and that I generally for all that concerns America and the Americans the most lively sympathies—so much so, that I originally compounded these Pills expressly to suit your climate, habits, constitutions, and manner of living, intending to establish myself among you, which I have now done by taking premises in New York.

THOMAS HOLLOWAY,
2d, corner of Ann and Nassau streets, N. Y.

The Blood, Liver, and Bilious Complaints

The citizens of the Union suffer much from disorder of the Liver and Stomach. The fair sex, perhaps the most handsome in the world, at a certain period lose their teeth and good looks while yet in the heyday of life. These evils may be effectually remedied by continually keeping the blood pure, and the liver and stomach in a healthy action, whoulife will flow smoothly. I say fearlessly that health and life may be prolonged for years beyond the ordinary limits if Holloway's Pills are taken to purify the blood, in accordance with the directions which accompany each box.

Cure of Weakness and Debility of Ten Years' Standing.

Capt. John Johnson, of Astor House, New York, for a number of ten years from a derangement of the Liver and Stomach, and was so reduced in strength that he never expected to go to sea any more, having tried every known remedy without any benefit whatever. At last he had recourse to Holloway's Pills, which completely cured him, after using them for three months and he now enjoys the soundest health.

These celebrated Pills are wonderfully efficacious in the following complaints:

Ague	Debility	Headache
Asthma	Dropsy	Indigestion
Bilious Complaints	Erysipelas	Jaundice
Blotches on the Skin	Female Irregularities	Liver Complaint
Bowel Complaints	Fevers of all kinds	Piles
Colds	Gout	Retention of Urine
Constipation of the Bowels	Head-ache, of Kings Evil	Sore Throats
Worms of all kinds	Secondary Symptoms	Scrofula, or
	Weakness, from whatever cause	Venereal Affections
		&c., &c.

*** Sold at the establishments of Prof. Holloway, 80 Maiden Lane, N. York, and 244 Strand, London, also by all respectable druggists and dealers in medicine throughout the United States, in pots and boxes, at 25 cents, 62½ cents and $1 each.

☞ There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each pot.

THE BLIND RESTORED TO SIGHT WITHOUT THE USE OF SURGICAL INSTRUMENTS!!

DR. L. T. UNDERWOOD, OCULIST AND OPTICIAN, has had the most extraordinary success in the treatment of diseases of the eye—succeeding, beyond even his own most sanguine expectations, in restoring to sight, no only those who being partially blind from scrofula and chronic ophthalmia, or inflamation of the eyes, by a great number of persons who had been blind for years, and had been abandoned by the most eminent physicians as incurable and blind for life. Among the latter have been cases of cataract, amaurose, staphyloma, pterygium, &c., some of which have been considered incurable, without the use of a knife or needle.

A number of those patients who have been successfully treated by Dr. Underwood are residents of this city, while there are a great many in this and adjoining States, whose certificates he will publish from time to time, and to which he now leaves to call attention.

The mode of treatment is in a great measure peculiar to Dr. Underwood, and originated with him. It causes but little pain to the patient, and is free from any danger attending the use of the knife. Nothing but a deep conviction of the superiority of his system, in the treatment of diseases of the eye, could have induced him to bring forward before the public—which he unparalleled success has left him no other alternative.

Having practiced his profession for some 20 years in Oldham and adjoining counties, Ky., before he came to this city, he refers to his acquaintance generally for his successful practice.

N. B.—I am making preparations to deliver to a class a course of lectures during the Fall and Winter, on the subject of Ophthalmic Medicine and Surgery.

OPINION OF THE PRESS.

A Hair Dye without a Rival.

CONSIDERING the number of Hair Dyes in the field the above is a good caption; but the standard's Liquid Hair Dye, on the score of scientific invention has claims of the highest character. Not only does it change hair of any obnoxious hue to a beautiful brown or black without exercising any corrosive influence, but it throws in a luxuriant vitality into the roots containing the roots of the hair, it stimulates them to new action. The natural pigment may in these so be reproduced, and finally the invigorated vessels may supersede the necessity of the Dye. This we believe is entirely a new feature in Hair Dyes, and certainly the article invented by Mr. Christadoro seems in all respects to eclipse rivalry.
